SPECIALIST in ROUND PARTS PROCESSING

with a wide range of experience
in manufacturing FLUID CONTROL PARTS

About Us

SPECIALIST in ROUND PARTS PROCESSING
with a wide range of experience in manufacturing FLUID CONTROL PARTS

IIYAMA SEIKI CO., LTD & IIYAMA SEIKI VIETNAM CO., LTD

For about 80 years IIYAMA SEIKI Co., Ltd., the mother company, has been rooted in Nagano, Japan.

In 2012 IIYAMA SEIKI Vietnam co., Ltd. (ISV) was established in Haiphong city Vietnam as a production base for the local Vietnam market and the global market. And completion of new factory was in March 2023

IIYAMA SEIKI both provide consistent manufacturing from highly accurate custom precision turning and grinding, including heat treatment, surface treatment, and OD polishing to sub-assembly. We also have extensive experience in processing difficult-to-cut materials such as titanium and Kovar. In addition, we developed an in-house Production Management system and have started to provide the system to customers. We are ISO 9001 and ISO 14001 certified (Japan)*.

*The Vietnam factory is currently preparing for ISO 9001 and 14001 certifications (Scheduled to obtain in Autumn 2023) .

Company name	IIYAMA SEIKI VIETNAM Co., Ltd (ISV)
Location	Lot CN8.2, Nam Cau Kien Industrial Zone, Hoang Dong Commune, Thuy Nguyen District, Hai Phong City, Viet Nam TEL +84225 7101063
President	TADASHI TERASAKA
Employees	85
Website	https://iiyamaseiki.co.jp/iiyamaseiki-en/
E-mail	info.mess-age@iiyamaseiki.co.jp / y-yamaguchi@iiyamaseiki.co.jp
Capital	US\$ 2,200,000(¥250 million) a 100%-owned subsidiary of IIYAMA SEIKI Co., Ltd
Established	October 2012 and completion of new factory was in March 2023.
Businesses	Manufacturing and sales of parts for hydraulic components for construction and industrial vehicles, etc.
Factory floor	Approx. 4,313 m ²
Headquarters	IIYAMA SEIKI Co.,Ltd (ISJ) 1162-15 Kusama Nakano-City,NAGANO,383-0053 JAPAN TEL +81 269 26 7851 FAX+81 269 26 7942

<Feature>

- Extensive experience with hydraulic valve parts, such as Cartridge, Sleeve, Valve Body, Poppet and more.
- Approximately 300 types of spools, notably, produced in the last 5 years (prototype and production)

<Products>

- Parts for hydraulic components for construction machinery (blanking to sub-assembly including performance test upon your request)
- Valve parts for semiconductor manufacturing equipment
- Hydraulic components parts for Industrial Vehicles
- Parts for fluid machinery, etc.

<Customers (in random order)>

Nishina Industrial Co., Ltd,
Shanghai Nabtesco Business Management Co., Ltd.
Tokyo Keiki Precision Technology co., Ltd., LTD.
Fujikin Vietnam Co., Ltd.

Main product images

Hydraulic Valve Parts

Materials: Steel, Copper, C45,
15CrMo and more

Size: $\phi 7 - \phi 32$
L10mm-200mm

Lot: 100-500/month

Outer diameter grinding tolerance: ± 0.002

Fluid Control Parts

Materials: Kovar and more

Size: $\phi 7 - \phi 32$
L10mm-200mm

Outer diameter grinding
tolerance: ± 0.002

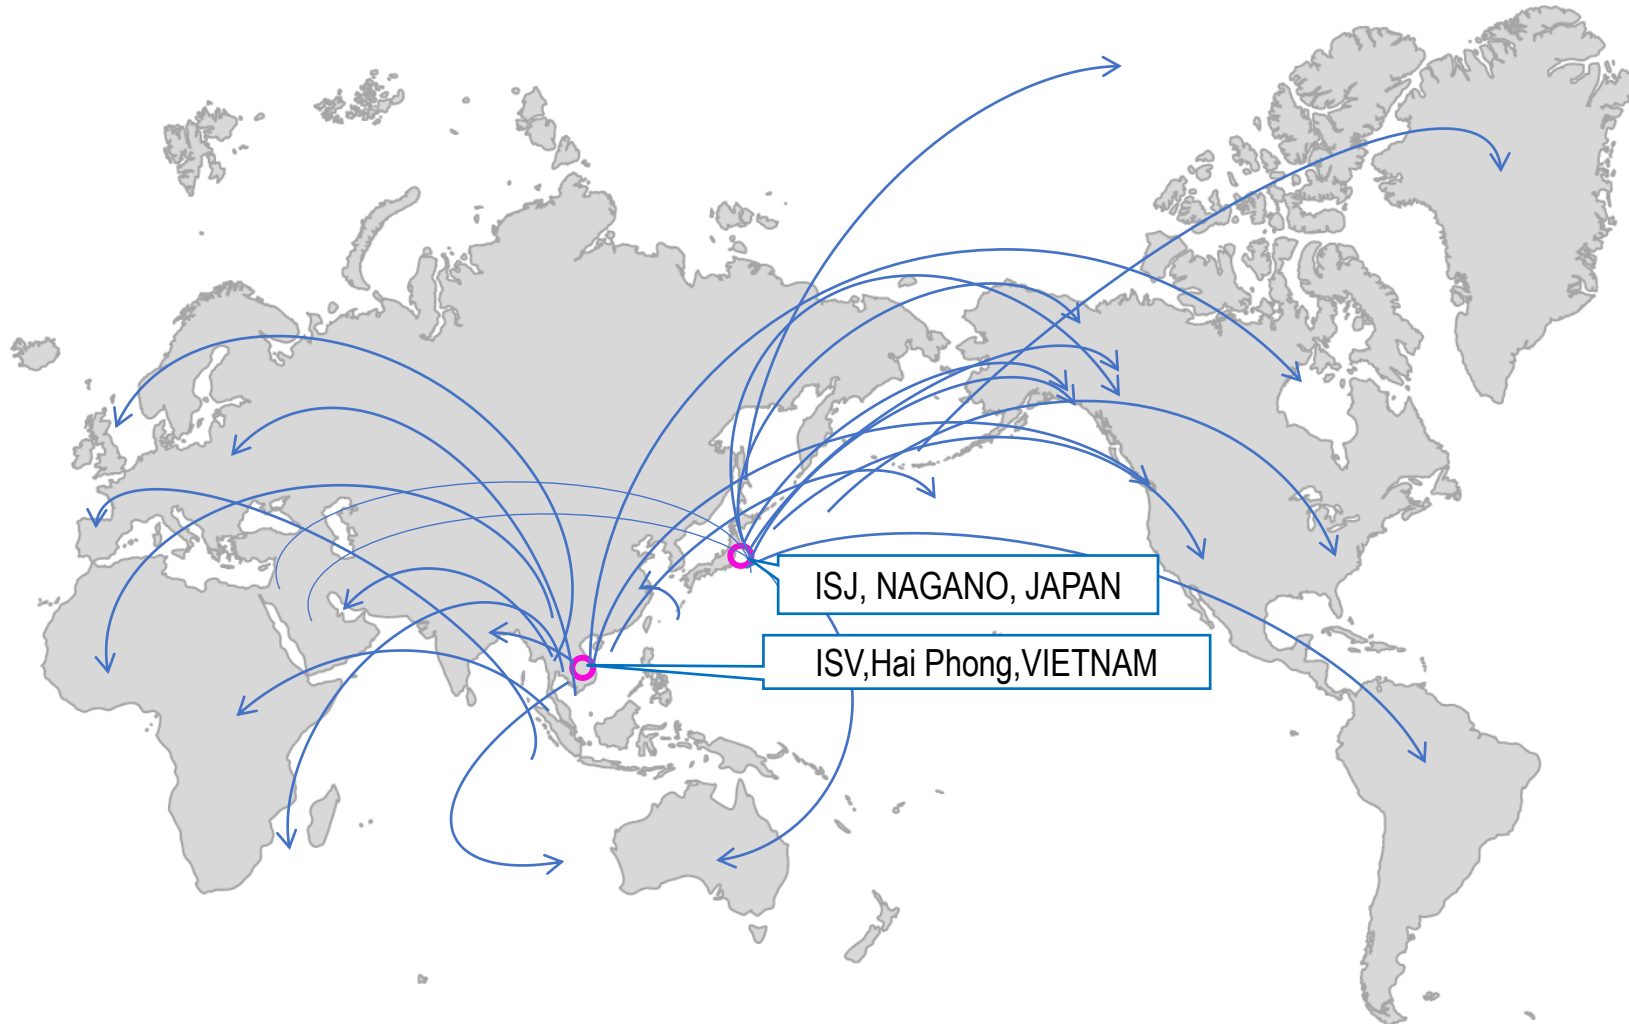

Electrical Components Products

Products Difficult to Cut Materials for special purpose

Materials: Titanium, Kovar,
SUS304.316.420J3 etc

**Our Technologies For Your Valuable Products Today and in the Future.
From Nagano, Heart of JAPAN and Hai Phong, VIETNAM**
